Mitch

We've received the lab test results from our "soil" samples collected below the outfall of a PVC drain which originates inside Bridgewater's incinerator building. I've been asked to send along the data – I will send you the lab sheets with the test results shortly –

Here are the results in mg/kg dry weight –

Ni -	27.4
Ag -	13.8
Zn -	6211
As -	107
Ba -	362
Cd -	160
Cr -	42.1
Pb -	1350
Se -	ND
Hg -	0.2024
